# SALMON EGGS

## Salmon Egg Guide

Salmon eggs remain one of the most trusted and effective trout baits on the water. As a natural food source, they attract fish through sight, scent, taste, and texture - making them simply irresistible to trout. While new bait innovations appear every season, salmon eggs continue to stand as the top choice for countless anglers seeking consistent, proven performance.

### Another Fact:

Trout love salmon eggs - but you can increase your success by matching your bait to the water conditions. In clear water, choose subtle, natural colors for a more realistic presentation.

When water is high or off-colored, bright eggs stand out and attract more strikes. In heavily stained lakes and streams, UV-enhanced or glitter eggs are most effective. For low-visibility conditions, baits infused with strong scents like garlic or shrimp give you an extra edge.

### What's the Difference?

**Oil Pack vs Dry Pack:** Oil Packs refers to jars filled with scent: shrimp & garlic, mostly, whereas a Dry Pack egg doesn't have liquid in it. Trout love them both!

## MIKE'S SHRIMP EGGS

Mike's best-selling salmon eggs earn their reputation year after year, and Mike's Shrimp Eggs are no exception. These jumbo-sized eggs are infused with our signature natural shrimp flavoring, delivering proven effectiveness season after season. Each egg offers the ideal balance of soft, strike-enticing texture and firm, elastic durability - ensuring it stays securely on the hook, even in fast-moving water. Available in five vibrant colors to match any water or weather condition, these eggs are a versatile and reliable choice for anglers targeting peak performance.

# MALLOWS

## MICRO MALLOWS

Atlas Mike's NEW Micro Mallows are a bite-size version of our world-renowned marshmallows, designed to deliver the same proven performance in a smaller profile. Perfect when fished alone for trout or panfish, Micro Mallows also excel at floating salmon eggs, cheese, or worm pieces off the bottom and directly into the strike zone. Their strong scent trail makes them a critical tool for anglers looking to attract more fish.

Affordable and effective, Micro Mallows offer exceptional value without sacrificing results. They're ready to fish straight out of the bag, or you can enhance them with added scent. For increased success, simply add Lunker Oil or Lunker Lotion to the bag or directly onto the Micro Mallows before casting.

# MALLOWS

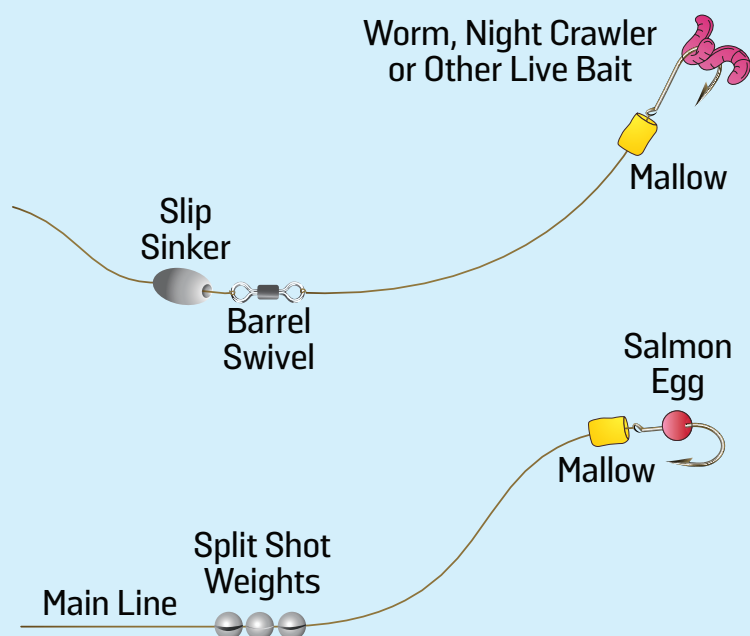

## MARSHMALLOWS

**Atlas and Mike's Marshmallows** are crafted with meticulous care to ensure the perfect balance - soft and enticing for trout, yet durable enough to stay securely on the hook. These real mallows are scented to attract curious fish and color-enhanced for added visibility.

Easy to rig and packed with scent, they can be fished on their own or paired with other proven baits like salmon eggs or nightcrawlers. Their natural buoyancy lifts your bait off the bottom, keeping it clear of weeds, rocks, and snags while holding it right in the feeding zone.

Choose from a wide selection of popular color and scent combinations, available in both regular and glitter-enhanced varieties. Both styles are long-time favorites among trout anglers.

Available in 1.5 oz. Jars

### TIP: Mallow Rigging

Atlas and Mike's Marshmallows can be used alone or with bait to float your bait off the bottom and into the strike zone of feeding trout. Here's a couple popular rigging options for use in lakes.

## ATLAS MIKE'S SAC ATTACK

### Easy to Use. Long-Lasting. Proven Fish-Catchers.

Some anglers actually prefer Atlas Mike's Sac Attack plastic cluster eggs over the real thing - and it's easy to see why. These durable clusters stay on the hook exceptionally well and are incredibly simple to use. Just pull one from the jar, rig it up, and you're ready to fish.

Ideal for drift fishing Steelhead, Salmon, or Trout. Sac Attack offers a reliable alternative when natural bait isn't allowed or available. But the real reason anglers keep coming back is simple: they catch fish.

Rigging is effortless - slide a single hook through the cluster, position your weight 18"-24" up the line, and start fishing. Discover for yourself why Atlas Mike's Sac Attack is a go-to choice for consistent results.

\*Top Choice by pros and guides for fisheries where no bait is permitted

## ATLAS MIKE'S MAGIC THREAD

MAGIC" Thread makes tying bait sacs faster, easier, and more secure. Simply wrap the thread three times around the stem of the bait sac, pull tight, repeat - and you're done. No knots required. Just a simple, effective system that saves time on the water.

More than just a tying thread, "MAGIC" Thread is also an excellent bait saver. Wrap it around bait on hooks or lures to keep shrimp, herring, sardines, salmon roe, crayfish, prawns, and more firmly in place for longer-lasting presentations. Dispenser keeps thread neat, clean, and ready to use.

## ATLAS MIKE'S MIRACLE THREAD

Ever been frustrated by bait - like shrimp or clams - slipping off your jighead or washing away in the ocean after every cast? Need to ensure your sardine wrap stays secure on a plug, or that ballyhoo and herring remain perfectly positioned on the hook? **Miracle Thread is your answer.**

Stock #	Size
66800	Clear Miracle Thread 100 feet
66830	Clear Miracle Thread With Dispenser 100 feet

Atlas Mike's **Miracle Thread** keeps your bait firmly in place cast after cast. This clear, strong, and stretchy thread requires **no knots**. Simply wrap it around the bait 8-10 times, give it a firm tug, repeat, and break it off - it's that easy.

Miracle Thread holds bait securely while remaining thin, strong, and virtually invisible to fish. Ideal for herring, sardines, prawns, shrimp, salmon roe, clams, crayfish, and more.

Available **with or without a dispenser**. The convenient dispenser keeps the thread neat and clean in your tackle box while protecting it from unwanted scents.

Discover the countless uses of **Atlas Mike's Miracle Thread** - simple, effective, and trusted by anglers everywhere.

**Now Available in 5 Packs**

**TIP:** Miracle Thread is a must-have for all anglers who wrap plugs or secure bait to a lure or hook. Simply cut bait to desired size and start wrapping thread over itself until the bait's securely attached to the plug. Miracle Thread has fantastic elastic properties to keep your bait where you want it, and using it is super simple - cut bait, wrap it, half hitch and you're fishing!

## ATLAS SHAKE 'N' CURE

**Atlas Shake & Cure** makes curing your own salmon and steelhead eggs fast and foolproof. The convenient shaker top takes the guesswork out of curing - everything is perfectly measured for consistent results every time.

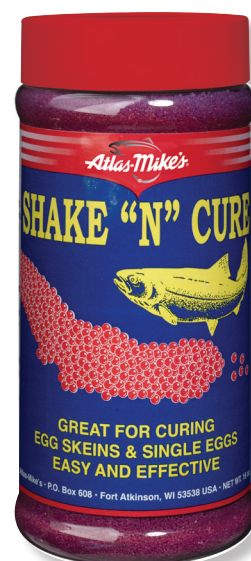

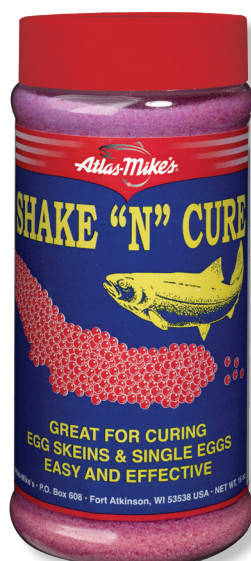

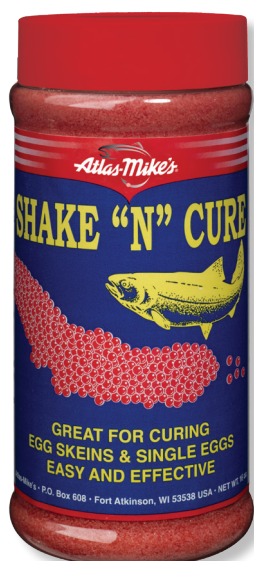

This proven sulfite-based formula infuses eggs and fresh roe with powerful fish-attracting scents and special milking properties that help draw strikes. Shake & Cure is also incredibly economical: cured eggs keep for months in the refrigerator and up to one year in the freezer, saving you money and reducing waste.

One 16 oz. bottle cures up to **15 pounds of eggs**, making it an easy, effective, and cost-efficient choice for serious anglers.

**Cure it right - use Atlas-Mike's products every time.**

## ATLAS-MIKE'S BRITE & TIGHT HERRING CURE

Experienced trollers know that properly brined herring lasts longer and fishes better - especially when using frozen bait. Atlas-Mike's Brite & Tight™ Herring Cure makes brining incredibly simple. Just unscrew the cap, pour into a container or ziplock bag, add your herring, and soak overnight. No mixing, no measuring - easy as it gets.

Stock #	Color
13001	Natural
13007	Green Chartreuse
13009	Blue

Brite & Tight not only toughens and brightens your herring for longer-lasting bait, it also enhances performance with powerful dyes to increase attraction. The UV-enhanced formula boosts visibility, giving your bait a distinct advantage - especially in low-light conditions where UV makes the difference between bites and blanks.

Brite & Tight isn't just for herring. Use it on shrimp, prawns, anchovies, minnows, crayfish, alewife, and more. This easy, no-mix cure delivers consistently prepared bait that gives you the edge professional anglers rely on.

**Pro Tip:** Squeeze Lunker Oil into Brite & Tight Herring Formula to add desired scent

**Cure it Right -  
Use Brite & Tight™**

**DYING TIP:** Go prepared. Some days salmon want smaller-profile baits, other days larger baits work better. Brine up green label and blue or even purple label herring (very large) using different dye colors.

Chartreuse, for example, can be very effective in deep water or under low-light conditions.

Blue dye has been a favorite among salmon anglers for decades and is still a popular choice.

Sometimes, particularly under bright skies, natural or red works best. Experiment with bait size and colors to optimize your efforts.

## MAGIC SPAWN SAC FORMULA

Atlas Mike's secret formula has been trusted for more than 50 years. Our Magic Spawn Sac Formula keeps your spawn sacs fresh and ready to use for 3-6 months at room temperature - and even longer when refrigerated. Designed for use on both cured and uncured eggs, this formula preserves freshness without altering the natural color of your spawn sacs, ensuring maximum effectiveness every time you fish.
